

ROONEY KING

Junior Frontend / Full-Stack Software Developer

Nairobi, Kenya

krodney552@gmail.com | +254 707 797 037 | github.com/Rodney-king

PROFILE

Junior Software Developer with hands-on frontend and full-stack experience, built through real projects, government-level ICT work at the GDP eCitizen Office under the National Treasury, and continuous self-driven learning. Grounded in Computer Science fundamentals with certified full-stack training from eMobilis and an active degree at Riara University. I build clean, purposeful systems — and I take the details seriously.

EDUCATION

Bachelor of Science in Computer Science — Riara University, Nairobi

Currently Pursuing · Started May 2026

Diploma in Computer Science — The Co-operative University of Kenya

Completed December 2025 · Cert No: 16597

Certificate in Full Stack Software Development — eMobilis Technology Training Institute

Completed · Westlands, Nairobi

Kenya Certificate of Secondary Education (KCSE) — Upper Hill School, Nairobi

Computer Studies: A Plain

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, Tailwind CSS

Backend: Node.js (basic), Python, Django

Tools: Git, GitHub, Vite, VS Code, Vercel

Other: Responsive Design, UI Architecture, Deployment, REST APIs

PROJECTS

Personal Portfolio — React, Vite, Tailwind CSS

Modern developer portfolio built for clarity and performance. Live at rodney-portfolio-szjn.vercel.app

Django Project — Python, Django, SQLite

Backend web project demonstrating server-side architecture, URL routing, views, templates, and database integration.

School Administration System — HTML, CSS, JavaScript

Web system for managing student records through a structured admin interface.

AirBnB Clone — Python, Django, JavaScript

Full-stack property listing and booking application demonstrating backend architecture and dynamic UI.

EXPERIENCE

ICT Attachment — GDP eCitizen Office, National Treasury

Provided ICT and administrative support in a government digital services environment. Handled system tasks, documentation workflows, and contributed to web-related projects under departmental supervision.
